

Cycling through unmerged git files

Rohit Goswami · 2025-07-26 · git · cmdline · emacs

To open the first unmerged file in `emacsclient`

```
emacsclient -n $(git diff --name-only --diff-filter=U | head -n 1)
```

or in `nushell`

```
git diff --name-only --diff-filter=U | lines | first | each { |it| emacsclient -n $it }
```
