

Talk Supplements for NixCon 2020

Rohit Goswami · 2020-10-17 · presentations · ramblings · nix · hpc

A meta-post on my lightning talk at NixCon 2020

Background

Much the same as the rationale behind my [meta-post on my talk at PyCon India 2020](#), that is:

- I would like to preserve questions
- I would like to collect the video, slides and other miscellaneous stuff in one location [^fn:1]
- It would be nice to have my own thoughts here afterwards

Details

Title

Nix from the dark ages (without Root)

Proposal

[See the cfp response here](#)

Abstract

Short comments from the trenches of High Performance Clusters on working with Nix on kernel locked-in systems without proot support.

Linked Posts

Local Nix without Root

Motivation and installation

- **Provisioning Dotfiles on an HPC:** Looks into how standard approaches fail (`proot`)
- **HPC Dotfiles and LMod:** All the ugly manual install steps

Other Content

Anything on this site tagged with Nix. Also an introduction to `nix` given by me (and Amrita Goswami) at CarpenteryCon2020 is here:

- CarpenteryCon2020 Materials
- A tutorial introduction to Nix and Python

Slides

- [Best viewed here](#) using a browser (in a new tab)
- A `pdf` copy of the slides are embedded below
- The `orgmode` source is [here](#) on the site's GH repo
